

## Limited Warranty

All DeckProtect™ products carry a one-year limited warranty. Allendale Fibertech will replace your DeckProtect™ if it is defective in workmanship or materials for a period of one year from date of purchase. This warranty extends only to the original purchaser of the product.

If you find your DeckProtect™ to be defective, you must contact the manufacturer, Allendale Fibertech Corporation, by mail or email. Allendale Fibertech will initiate a pick-up by UPS and ship a new DeckProtect™ of the same size to your address. Customers are advised to keep the DeckProtect™ shipping carton so that it can be used to repackage the product for return shipping.

This warranty is limited to the purchase price of the product and does not cover damage to your deck or other property. DeckProtect™ is designed only to protect your decking surface from radiant heat under a professionally manufactured fire pit or chiminea that safely contains burning materials at least 3 inches above the surface of the DeckProtect™. Users must select a DeckProtect that is large enough to cover the area under the hot surface of the fire pit or chiminea. No guarantee is expressed or implied that burning a fire will not be a hazard or create a risk of fire. Users are urged to follow the instructions for their fire pit or chiminea and to exercise caution and common sense whenever fire is involved.
